

SAFETY DATA SHEET
According to EC Directive 91/155/EEC

Revision Date 10.04.2018 Version 1.0

SECTION 1. Identification of the substance/mixture and of the company/undertaking

1-1 Product identifier

Product name: Xyten Trinity Root Booster
Catalogue No.: XYTR103

1-2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses Chemical for agricultural
For additional information on uses please refer to the
Xyten Chemicals webpage (www.xyten.com)

1-3 Details of the supplier of the safety data sheet

Company: **Xyten Ltd 111 Newton Rd, Eden Terrace,
Auckland 1010
New Zealand**

Phone: 09 363 2004

e-mail: info@xyten.com

1-4 Emergency telephone Please contact emergency services in your country.

SECTION 2. Hazards identification

2.1 Classification of the substance or mixture

This substance is not classified as dangerous according to European Union legislation.

SECTION 3. Composition/information on ingredients

CAS	NAME	%
9005-32-7	Alginic Acid	Proprietary
68514-28-3	potassium humate	
133-324	Indole 3 Butyric acid	
86-86-2	1-Naphthylacetamide	
86-87-3	1-Naphthylacetic acid	
	Proprietary other ingredient contain trace elements - Amino Acids & other mineral	

SECTION 4. First aid measures

4.1 Description of first aid measures

After inhalation: fresh air.
After skin contact: wash off with plenty of water. Remove contaminated clothing.
After eye contact: rinse out with plenty of water.
After swallowing: make victim drink water (two glasses at most). Consult doctor if feeling unwell.

4.2 Most important symptoms and effects, both acute and delayed

We have no description of any toxic symptoms.

4.3 Indication of any immediate medical attention and special treatment needed

No information available.

SECTION 5. Fire-fighting measures

5.1 Extinguishing method

Suitable extinguishing product
Water, Carbon dioxide (CO₂), Dry powder, Foam

Unsuitable extinguishing product

For this substance/mixture no limitations of extinguishing agents are given.

5.2 Special hazards arising from the substance or mixture

Combustible material, Development of hazardous combustion gases or vapors possible in the event of fire.

5.3 Advice for firefighters

Special protective equipment for fire-fighters
In the event of fire, wear self-contained breathing apparatus.

Further information

Prevent fire extinguishing water from contaminating surface water or the ground water system.

SECTION 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel: Avoid inhalation of dusts. Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: Protective equipment see section 8.

6.2 Environmental precautions

None

6.3 Methods and materials for containment and cleaning up

Cover drains. Collect, bind, and pump off spills.
Observe possible material restrictions (see sections 7.2 and 10.5).
Take up dry. Dispose of properly. Clean up affected area. Avoid generation of dusts.

6.4 Reference to other sections

None

SECTION 7. Handling and storage

7.1 Precautions for safe handling

Observe label precautions.

7.2 Conditions for safe storage, including any incompatibilities

Tightly closed. Dry.

Store at +15°C to +20°C.

7.3 Specific end uses

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

SECTION 8. Exposure controls/personal protection

8.1 Control parameters

8.2 Exposure controls

Engineering measures

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment.

See section 7.1.

Individual protection measures

Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of the hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the respective supplier.

Hygiene measures

Change contaminated clothing. Wash hands after working with substance.

Eye/face protection

Safety glasses

Hand protection

full contact:
Glove material: Nitrile rubber
Glove thickness: 0,11 mm
Break through time: > 480 min
splash contact:
Glove material: Nitrile rubber
Glove thickness: 0,11 mm
Break through time: > 480 min

Respiratory protection

required when dusts are generated.
Recommended Filter type: Filter P 1 for solid particles of inert substances The entrepreneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.

Environmental exposure controls

Do not empty into drains.

SECTION 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Form	Solid Powder
Color	mixture of some black & gray, white in capsule
Odor	sea weed, other
Odor	Threshold No information available.
pH	No information available.
Melting point	No information available.
Boiling point	No information available.

Flash point	No information available.
Evaporation rate	No information available.
Flammability (solid, gas)	No information available.
Lower explosion limit	No information available.
Upper explosion limit	No information available.
Vapour pressure	No information available.
Relative vapour density	No information available.
Solubility(ies) Solvent:	Ethanol 100 g/l 25 °C
Auto ignition temperature	No information available.
Decomposition temperature	none
Viscosity, dynamic	No information available.
Explosive properties	No information available.
Oxidizing properties	No information available.
9.2 Other data	
None	

SECTION 10. Stability and reactivity

10.1 Reactivity

The following applies in general to flammable organic substances and preparations: in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

10.2 Chemical stability

The product is chemically stable under standard ambient conditions (room temperature) .

10.3 Possibility of hazardous reactions

no information available

10.4 Conditions to avoid

no information available

10.5 Incompatible materials

no information available

10.6 Hazardous decomposition products

no information available

SECTION 11. Toxicological information

11.1 Information on toxicological effects

Specific target organ toxicity - repeated exposure

The substance or mixture is not classified as specific target organ toxicant, repeated exposure. *Aspiration hazard*

Based on available data the classification criteria are not met.

11.2 Further information

Hazardous properties cannot be excluded but are unlikely when the product is handled appropriately.

Further data:

Substances which occur in nature

Handle in accordance with good industrial hygiene and safety practice.

SECTION 12. Ecological information

12.1 Toxicity

Substance is not toxic

12.2 Persistence and degradability

No information available.

12.3 Bioaccumulative potential

None

log Pow: 0,24 (experimental)

Bioaccumulation is not expected. (Lit.)

12.4 Mobility in soil

Bio degradable

12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

12.6 Other adverse effects

Additional ecological information

None

SECTION 13. Disposal considerations

Waste treatment methods

Call www.xyten.com for processes regarding the return of chemicals and containers, or contact us there if you have further questions.

SECTION 14. Transport information

Not classified as dangerous in the meaning of transport regulations.

SECTION 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Major Accident Hazard 96/82/EC

Legislation Directive 96/82/EC does not apply

Storage class 10 - 13

15.2 Chemical Safety Assessment

For this product a chemical safety assessment was not carried out.

The Safety Data Sheets for catalogue items are available at www.xyten.com

Page 6 of 7

SECTION 16. Other Information Training advice

Provide adequate information, instruction and training for operators.

Key or legend to abbreviations and acronyms used in the safety data sheet

Used abbreviations and acronyms can be looked up at www.wikipedia.org.

Regional representation

This information is given on the authorized Safety Data Sheet for your country.

The information contained herein is based on the present state of our knowledge. It characterizes the product with regard to the appropriate safety precautions. It does not represent a guarantee of any properties of the product.
